An Unforgettable experience

I had an unforgettable boating experience last summer. My parents and I went to Guangzhou, and when we arrived at Libo, one of our tourist spots, we played as planned and went to Yuanyang Lake.

Firstly, when we were getting on the boat, it kept shaking! Then, we regained our balance and got on the boat successfully without shaking. I didn't know how to row the boat and kept getting stuck. After my parents taught me how to row, I was able to do it smoothly.

After that, we boated in the "Water Maze." Even though I rowed skillfully, I still got stuck many times! After rowing for about half an hour, I saw some Mandarin ducks. They were so cute, and I had fun chasing them. They were so fast that I couldn't catch them!

After chasing them, time ran out, and we had to return the boat. I loved doing this, and I hope I can go boating there again!

Book-O-Ween

This year's Book-O-Ween was so much fun! Our class performed *Alice in Wonderland*, and we won the overall first prize! I was very happy, but I hope I can also make the cookies next year. I think I could have done better with my tone because I did not use many variations. One difficulty I found was that it was quite hard to distribute the candies to the parents because I only had a few. I think 6J's performance was also good; they performed *Star Wars*. The battle was so exciting! At the same time, their dance was impressive. I hope next year's Book-O-Ween will be even better!
